Overview

This is the official Pool Masters Litepaper.

Pool Masters is a crypto Play-to-Earn mobile game set to change the world of crypto gaming, forever.

Pool Masters is a social mobile gaming app where anyone can earn tokens by playing and winning games of pool. Pool Masters now introduces a new way for players to earn real money by completing daily challenges and competing against each other in a free-to-play pool game. \$POOL is the free play play-to-earn token that players claim after the tournament day has concluded (Midnight UTC).

Play-to-Earn Token

In order to participate, players will need to obtain at least one exclusive POOL NFT Wearable either through purchase or delegation. When holding a one-of-a-kind POOL NFT, players will be allocated a set amount of Chips which are used to participate in POOL games.

Players can earn by:

1. Completing POOL Masters daily check-in and 3 challenges.
2. Competing for daily leader board multipliers based on Chips net winnings.
3. Delegating NFT wearables to other players for a passive revenue share.
4. Receiving delegation to NFT wearables for a revenue share.
5. Minting new NFT wearables and selling them on the marketplace.
6. Earning POOL tokens to sell to other players, which is needed to mint NFT wearables.
